

December 2025

**Dear all,
Management of Keren Hayesod,**

I would like to express my deep appreciation for the meaningful series of visits I concluded recently in Zurich, Montreal, and Italy.

Throughout these visits, I personally felt the tremendous impact of the work of Keren Hayesod's representatives, and I thank you and them for the warm welcome, the professionalism, the dedication, and the impressive activities carried out on behalf of the State of Israel.

Meeting strong, warm, devoted Jewish communities allowed me to sense closely the concern and the profound solidarity. In events with donors and in meetings with key figures in the media, I witnessed focused and attentive efforts to confront the narrative in the media arena and across networks.

Despite the burdensome weight of the campaign and the enormous pressure – challenges that are only intensifying and becoming more complex – we are all strengthened by the connection with the communities and the sense of shared mission.

These meetings sharpened, yet again, how important your work is for strengthening the communities, and how vital your consistent commitment is to fighting for our truth.

The contribution of Keren Hayesod continues to play a most significant role – a professional, valuable, and essential anchor during this period, and for the Jewish world at large.

I would like to personally thank the representatives in Zurich, Italy and Montreal and my friends Ofer and Eyal – for their dedication to the mission, the outstanding ability to convey a sense of warmth and partnership, the excellent organization that made the visits smooth and effective, and the unique ability to handle challenges sensitively and constructively.

It was a privilege for me to take part in this effort, and I intend to continue doing so moving forward.

Am Israel Chai, always.

With great respect,

Daniel Hagari
